

## Town Lake, Killeshandra

This lake is located just outside Killeshandra on the left-hand side of the road towards Eonish. Coming from Dublin, in Killeshandra Main Street as you come down the steep hill, turn right when you see the Ulster Bank and follow the road as it bends sharply left. Car park entrance is 100 yards ahead on the left. Please park carefully and leave no litter.

There are resident shoals of bream which usually respond to pre-baiting to bring them within range, but for the match angler roach and small skimmer bream are the target. Feeder, waggler and long pole will all work. Best pegs are the 4 to the right of the point for skimmers and the pegs closer to where the Cullies River is for roach. Perch are a good back up target species if the roach or skimmers aren't showing.

You can see how the venue fished in previous matches by looking through the match reports on the club website.
